PERSONAL.-Judge B. W. Lacy, of New Kent, was defeated for the House by Mr.

Gregory by 21 votes. It is likely that Governor Kemper will send a message to the General Assembly when it meets in December, and Colonel Holliday send in another when he is inaugurated on the 1st of January. Governor Kemper is strongly in favor of maintaining the honor and credit of the State.

In the George case, before the Chancery Court yesterday, the whole time was occupled in the reading of the letters in evidence. A conclusion will hardly be reached before Saturday. The amount involved is between fifty and sixty thousand dollars. Colonel John B. Cary, agent of the Life Association of America, has paid to Mrs. Lilly J. Harrison \$12,500, the amount of the

policy issued by the company on the life of the late Julien Harrison. Among the visitors to the Tobacco Exchange yesterday were H. R. Farmer, W. T. Watts, Pittsylvania; J. V. Perrin, Amelia; L. V. A messenger came down to the Junction, and soon the telegraph was sending mesthe Junction, and on that car the passengers fit of women. all lodged for the balance of the night, arriving at the Junction an hour or two after

rains near Greenwood Monday night. The accident near Anderson's was caused,

moval of the bolt. The engineer says he knew nothing from the time the engine first began to jump till he found bimself surrounded by people in the mud. The fireman says he fell forward, and this fall probably stunned him and wounded his head and face.

The fireman was not burt, and rendered efficient service to extricate his comrade. Conductor Smith seemed to be equal to pear. the emergency, and Captain Phillips, who commanded the wrecking force, seemed to know what to do. An engine carried up several officers from Richmond after the

passengers reached the Junction. The accident would probably have proved more serious but for the fact that next to the tender was one of the company's fastfreight cars, supplied, as the passengerbaggage-, and express-cars are, with the Westinghouse air-brake. This car was loaded with perishable freight, and being next to the tender and very heavy served to break the force and slacken the speed of behind it. The fast-freight car was considerably damaged and broken, but none of was discharged. the freight was injured. The track where the accident occurred was somewhat torn up, and the cars being in the way prevented the roadway from being cleared for the

passage of trains until yesterday afternoon. The express train due here at 7 o'clock vesterday morning did not reach the scene of the disaster until nearly 8 o'clock, having been delayed at Crozet by the large number of freight trains that were waiting to pass over the new bridge, the old one having been damaged by the recent heavy Upon reaching Anderson's, the accommodation train from Gordonsville, due in Richmond at 8:40 A. These two trains remained until 10:20 o'clock, when the westward-bound mail train, which left this city at 8:45 yesterday morning, arrived at this end of the wreck. Preparations were at once made to send back that train, as the accommodation and express trains, and the passengers, baggage, mail, and express matter was transferred, and the train reached Richmond between 2 and 3 o'clock yesterday afternoon. The accommodation train from Richmond left, as usual, at 4 P. M. yesterday. The mail train and H. W. Tyler. due here at 5:30 o'clock last evening was

It is the opinion of some of the officers of proposed to have the building ready for octheir usual time. the road that the accident was caused by the cupation by the 1st of February, if the malicious act of some unknown fiend, who removed the bolt at the point where the switch joins the rails. Others believe the mishap was purely the result of an accident; that some portion of the machinery of the switch was broken by a passing train, and before the track-walker could reach the place the express train passed along and the accident happened. At all events, it was owing to no fault of any of the company's officers or employes, and, all things considered, they are to be congratulated upon the fact that no one was killed, and that those who were injured were but slightly hurt. The chief loss to the company will be in the fine engine, which was badly damaged. The

cars were only slightly injured.
